Why work with us

Custom molds

Bring a drawing or sample. We develop tooling and confirm with a sample before production.

Full decoration

Screen printing, hot stamping, frosting, spray coating and electroplating, in-house or with partners.

Matched closures

Pumps, droppers, caps and cartons sourced to fit, so one order covers the whole pack.

Export ready

Pallet and carton packing built for sea and air freight to protect glass in transit.

How we check quality

01

Material check

Raw materials and components are checked when they arrive.

02

In-process checks

Dimensions and appearance are checked during production.

03

Final inspection

Finished goods are inspected against the approved sample.

04

Packing check

Cartons and pallets are checked before export shipping.
